

Big benefits for small businesses

Find quality health plans through the Missouri Chamber

If you're looking for cost-effective benefits for your small business, the Missouri Chamber Federation can help.

The Chamber Benefit Plan allows small business employers like you to offer quality healthcare coverage to your employees at rates usually reserved for larger businesses. This innovative plan from the Missouri Chamber Federation uses a multiple employer welfare arrangement (MEWA) model to help small businesses join and share in overall claims risks by being part of a larger, self-funded pool.

Powered by the Missouri Chamber Federation and administered by Anthem Blue Cross and Blue Shield, the Chamber Benefit Plan is available to Small Group employers in Missouri who are members of a qualifying chamber of commerce and have 2 to 50 eligible employees.

Advantages of a Chamber Benefit Plan offer:

- Competitive, medically underwritten rates.
- A variety of flexible plan designs, including:
 - 17 preferred provider organization (PPO) plans.
 - Four health savings account (HSA) plans.
 - Five focus plans.
- Additional savings for dental and/or vision coverage.
- Stable costs.
- Simplified administration.
- A money-saving SmartShopper program that helps members save money and receive cash back when they need a covered medical service.
